From: Frank

MEMO DEALER LETTER MAY-2015

BEST WISHES TO OUR GOOD FRIEND BILL MCCLUNG

Bill McClung has had an ongoing relationship with InterMountain Railway Company since the early 1990's as the General Manager of Red Caboose. This relationship developed into a partnership four and a half years ago when InterMountain assumed the manufacturing and distribution responsibilities for Red Caboose products. This arrangement continued through the end of 2014 when Fox Valley Models acquired the N scale product line and InterMountain acquired the HO product line from Red Caboose.

Additionally, Bill has served faithfully and effectively for the past three and a half years as the Sales Vice President for InterMountain Railway Company. Under his direction InterMountain sales area has continued to develop into one of the best in the industry.

Later this month, Bill will be retiring to his beloved State of California to enjoy the sea and the magnificent redwoods. All of us at InterMountain will miss him, but we wish him the best in his future endeavors. May the God of Model Railroading be with you, Bill, as you move on to the next exciting chapter in your Book of Life.

Those of you who have been working with Bill over the past years are welcome to contact him at InterMountain over the next few days with your best wishes.

HERITAGE UNIT COLLECTION

HOW YESTERDAY MOVED

Introducing a New Heritage Series in N Scale

In cooperation with the N Scale Enthusiast, we are happy to announce a new series of Heritage Paint schemes. Following the lead of other railroads, we will honor twenty different railroads that make up today's CSX. Based on input from NSE members, we will release these in 5 different groups over the next few years. We are announcing Groups 1 and 2 today - Group 1 is for delivery in late 2015 and Group 2 for the first half of 2016. Other roads are listed below for reference and we will send out official notices when reservations are due on future items. This is a Special Run with proceeds from each locomotive going to help the N Scale Enthusiast preserve the history of N Scale Model Railroading, and will be made to order. The ES44AC locomotive will be used for all schemes as it has become the go-to loco for CSX, which has more on order for delivery this year. Don't miss out on these special run locomotives!
