September 2015 Dealer Announcement

HO GP10 LOCOMOTIVE UPDATE:

The tooling for the GP10 locomotive is finished! Production is coming within the next few months. It is time to move on to the second phase of this exciting project.

HO SCALE GP16 LOCOMOTIVES

This month we are announcing Advance Reservations for the first ten decoration schemes of the GP16 locomotive. Place your reservations early so that we can make production plans. Delivery is expected in Summer of 2016. All of these releases are detail specific to provide the most accurate models feasible.

HO AND N SCALE MODIFIED 1937 AAR BOXCARS

With new paint schemes combined with several re-releases, these boxcars provide something for every transition-era modeler. These cars were used almost universally in interchange service, so they were seen all across the continent. Six road numbers are available for all of the releases, however the C & EI only had five cars!

HO SCALE 48ft. JINDO CORRUGATED CONTAINERS

These containers are offered in two-packs of each decorative scheme. Every modeler will need several packages to equip their container car consist. Whether they are used in 48' well cars or stacked, they will add a lot of color and decoration detail to a modern container train. These models are a unique representation of one of the many types of prototype containers seen on the railroads today.

Frank Angstead
InterMountain Railway Company

GP16 Locomotives

Announced: September 11

Reservations Due By: October 31

Available: July / August

HO List: \$199.95
w/ Sound: \$299.95

ALL NEW TOOLING!

These GP16 locomotives will be manufactured with finely molded parts that have been designed to reproduce railroad specific details. All locomotives are factory equipped with ESU sound decoder or ESU non-sound decoder. DC plug option available upon request.
