# October 2015 Dealer Announcement

## ***N SCALE LOCOMOTIVE PRODUCTION UPDATE:***

There have been lengthy delays in the delivery of our N scale locomotives over the past few years. Initially these delays were caused by a change in vendors. Transfer of the tooling and subsequent start-up processes took longer than was anticipated. We have, however, begun the production of N scale locomotives with our new supplier and several production runs have been made available to the marketplace during the past several months.

Most recently we have endeavored to provide a broader line of N scale locomotives with our existing and upcoming models, providing three options; DC only, DCC without sound, and DCC with sound. When entering into a new realm, unforeseen circumstances usually arise. The two challenges we have faced in this project are the development of the N scale sound system and the retooling of all of the various chassis for each of the locomotive models. Both of these are near completion. While we have been forced to push back our delivery dates several times, we are pleased to be able to let you know that there will be a number of these items available during the next few months. It is anticipated that the first of our sound locomotives will be delivered yet this year or soon after the New Year.

We appreciate your patience and ongoing support of InterMountain Railway Company.

## ***HO SCALE INTERMODAL***

Over the next few months we will be shipping all four of our container cars. This month the Thrall container cars and the individual Husky Stack container cars are available. Also, there are several runs of containers of different sizes and configurations in stock to go with these magnificent cars. More containers are on the way as well.

## ***HO SCALE 10,000 GALLON TANK CARS***

The ever popular HO 10,000 gallon tank cars are back! Three of the paint schemes are being offered for the first time. These colorful cars will add character for any consist of the period. The ten choices are so varied that every modeler will be able to add one or more cars to their fleet. Built dates and re-work dates range from 1923 to 1960.

## ***SHOW NEWS!!***

Trainfest is coming soon! If you are in the area join us in Milwaukee for this fantastic event. Many of the significant model railroad manufacturers will be on hand and look forward to sharing their current news with you. There will be many new and upcoming items to review. We will have some exciting things to share with those of you who come by our booth. We are looking forward to seeing you in Milwaukee.

A handwritten signature in black ink that reads 'Frank Angstead'.
