# January 2016 Dealer Announcement

## *HO SCALE GP16 LOCOMOTIVES*

Production has begun on the HO GP10 locomotives and we expect delivery in early to mid Summer 2016. They will be closely followed by the GP16 version of these locomotives. The attached sheets contain a second Advance Reservation announcement for ten more paint schemes for this unique model. Many of these paint schemes are very colorful and will brighten up the layouts of modelers of this era.

## *N SCALE TRINITY 3281 COVERED HOPPERS - NEW MODEL!*

This ALL NEW model will soon be available as the newest addition to our N Scale freight car line. Ten highly detailed and prototypically accurate paint schemes are available in the first Advance Reservation offering for this highly desirable model. A sand and cement hauler first introduced in the late 1990's, these cars are often seen in large numbers, hauling a single commodity. They are also used to carry other dry materials.

## *HO SCALE 40ft. PS-1 BOXCARS*

Ten of the twelve decorative schemes in this offering have never been offered by InterMountain before. Many of these cars were in full interchange service, traveling all across the country. These cars were built from the late 1940's through the early 1970's. They remained in use for many years and therefore are appropriate for a long modeling period. They will fit almost everyone's layout due to their wide range of use during this era.

## *SHOW SCHEDULE*

We have seen many of you at the InterMountain booth at various shows over the past several months. Our next big show will be the Amherst Model Railroad Club show at the "Big E" in West Springfield, Massachusetts. If you happen to be in the area on January 30th and 31st, please come by and see us. We will be exhibiting the newest and best of InterMountain products and always look forward to answering any questions you may have.

A handwritten signature in black ink, reading "Frank Angstead".
