# July 2016 Dealer Announcement

## *HO SCALE LOCOMOTIVE PAINT SCHEMES ADDED*

Stock #497105 - Norfolk Southern Tier 4 GEVO - Thomas H Parker Photo

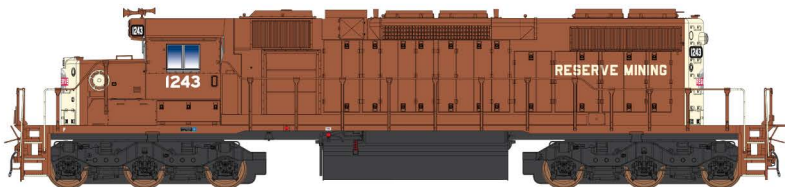

Stock #497211 - BC Rail C44-9W - Photo by Colin Restorick

## *TIER 4 GEVO, C44-9W & SD38-2!*

The Norfolk Southern has become the fifth user to contract for delivery of the Tier 4 locomotives from GE. This important project will be added to the Tier 4 paint schemes that are already on reservation. All five will be delivered at the same time.

The following three decorative schemes have been added to those already on the reservation list for the HO C44-9W; (1) BNSF H2, (2) BNSF New Image, and (3) BC Rail. There are more coming but we wanted these three important items to be included in the first production run.

There are also three additions to the already announced paint schemes for the SD38-2. They are (1) Reserve Mining, (2) GATX – ex Reserve Mining, and (3) Progressive Rail.

Stock #493312 - Reserve Mining SD38-2

## *N SCALE PASSENGER CARS*

With the imminent release of the Lounge Car, we will be offering reruns with a few new items of the existing passenger cars in order to allow all of the N scale passenger modelers the opportunity to complete their consists. Watch for additional releases over the next few months.

## *N SCALE 4750 CUBIC FOOT HOPPER CARS*

This month we will be shipping eighteen paint schemes for the N scale 4750's. This is a significant car for N scale modelers and will be followed by a large variety of N scale items over the coming months. The N scale SD40-2 locomotives are scheduled for delivery in early fall!

*Frank Angstead*

# ANNOUNCING ADDITIONAL LOCOMOTIVES FOR RESERVATION!

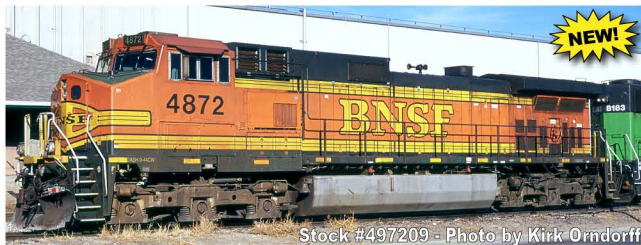

InterMountain Railway Company is excited to announce the addition of more roadnames for our locomotives already on reservation!

## HO Scale GE EVOLUTION SERIES TIER 4 LOCOMOTIVES

The InterMountain Tier 4 GEVO will continue our tradition of excellence in this series of modern, GE-built locomotives. This all new model will feature finely molded parts and railroad specific details, accurate paint and lettering with laser sharp printing and a smooth, powerful drive mechanism. This locomotive will be factory equipped with ESU® sound decoders or ESU® non-sound decoders; a DC plug option will be available upon request. As more railroads purchase these and take delivery, we will make subsequent product announcements.

**497105(S) Norfolk Southern (4 numbers)**  
Unit Numbers: -01 3607 -02 3614 -03 3625 -04 3637

## HO Scale General Electric C44-9W LOCOMOTIVES

In 1993, General Electric introduced the C44-9W locomotive, which quickly became known as the "Dash 9." Among the railroads to order them were Santa Fe, Burlington Northern Santa Fe, Union Pacific, Chicago & North Western and Southern Pacific. These locomotives were produced in large quantities for these and other North American railroads until the end of 2004. The C44-9W continue in service today for their original and subsequent owners with many being given a new lease on life in various rebuild programs.

The InterMountain Railway Dash 9 will include all of the features you have come to expect from our locomotive products. The Dash 9 will be offered in multiple phases representing road specific and order specific details whenever possible. Among the variations that will be offered; Three and Four Window Cabs, Canadian Teardrop Window Cab, High and Low Headlights, and Early and Late Radiator Intake grilles. These locos will be available with ESU® sound decoder or ESU® non-sound decoder. DC plug available upon request.

**497209(S) BNSF H2 (4 numbers)**

## HO Scale EMD SD38-2 LOCOMOTIVES

The SD38-2 was introduced in 1972 and built until 1979. It is the non-turbocharged, 2000 HP version of EMD's very successful SD40-2. The SD38-2 was produced in limited numbers, but found homes on many Class 1 railroads. They were typically used in yard service where low speeds and good tractive effort was required. Almost all are still in service today, with many being refitted as Remote Control yard locomotives.

Features: Sharp Painting and Lettering, Multiple Road Numbers, Road Specific Details, Wire Grab Irons and Etched Metal Details, and Kadee® Couplers. All locomotives are factory equipped with ESU® sound decoder or ESU® non-sound decoder. DC plug option available upon request.

**493312(S) Reserve Mining (3 numbers)**  
Unit Numbers: -01 1237 -02 1240 -03 1242

**493313(S) GATX ex-Reserve Mining (3 numbers)**  
Unit Numbers: -01 1238 -02 1241 -03 1244

**493314(S) Progressive Rail (1 number)**  
Unit Numbers: -01 42 (includes two sets of placards)
