November 2016 Dealer Announcement

SHOW TIME!

By the time you receive this information one of the premier 2016 shows of the year, Trainfest in Milwaukee, will be history. This is typically one of the top two or three shows for introduction of new products and for manufacturers to announce their future plans. Watch the internet venues for reports on the show.

InterMountain exhibits at eight to ten shows each year in both the US and Canada. We always look forward to visiting with dealers and modelers, "putting a face" to those telephone conversations and e-mail communications we deal with every day. If you missed us in Milwaukee, we will be at the following shows in December and January:

Oklahoma City Train Show in Oklahoma City, OK
December 3 & 4

Amherst Model Railroad Society Model Train Show in West Springfield, MA
January 28 & 29

HO & N SCALE EMD F3A & F3B LOCOMOTIVES

These early diesel workhorses are a must for every transition era layout. There are nine offerings in this Advance Reservation release. Six of them are new paint schemes being made available by InterMountain for the first time.

HO & N SCALE CYLINDRICAL HOPPERS

While everyone has some of these models on their late-era layouts, there is always room for new paint schemes and additional car numbers. Five of the ten items released this month for Advance Reservation are being offered by InterMountain for the first time. The others feature new car numbers. These cars are typically seen on loooooong trains in Canada and the northern section of the US. They are, however, seen in small numbers, sometimes single cars, all across America. These cars are an absolute must on any layout from the 1970's to the current time.

HO & N SCALE 8,000 GALLON TANK CARS

This car was used extensively during its era. In long trains and as part of mixed consists these cars were used in interchange service across the country. Four new, colorful paint schemes are featured in this month's release of twelve choices.

Frank Angstead
InterMountain Railway Company

EMD F3A & F3B Locomotives

Announced: November 11 Reservations Due By: December 31 Available: June / July

Features Sharp Painting and Lettering, Multiple Road Numbers, Wire Grab Irons and Etched Metal Details. All locomotives are factory equipped with ESU sound decoder or ESU non-sound decoder. DC available for N scale and DC plug option available for HO locomotives by request.
