December 2016 Dealer Announcement

N SCALE SD40-2 LOCOMOTIVES!

The locos are coming, the locos are coming! The first eight paint schemes of the long-awaited N scale SD40-2 will be shipping the week of December 19. The DCC and DCC with Sound versions will be equipped with newly developed ESU PC boards featuring the ever popular LokSound. We believe this will be the first narrow-bodied N scale locomotive to feature factory installed sound. What a wonderful innovation for the N scale modeling group. Many more paint schemes will be following in the first few months of the New Year.

N SCALE FT LOCOMOTIVES AVAILABLE WITH SOUND!

There are two sets of N scale FT's on Advance Reservation at this time. The first group was offered for reservation before the DCC and Sound options were available. The result is we have a lot of DC locomotives on reservation for that first group. With the new availability of DCC and DCC with Sound, our sales staff is contacting all dealers with these reservations, providing them the option of upgrading to DCC and DCC with sound. If you have these locomotives on reservation, please update your Reservation between the three options.

SHOW UPDATE

We had the privilege of seeing many of our dealers and customers at Trainfest in Milwaukee and at the Oklahoma City Train Show. Both were well attended by avid model railroaders. One of the outstanding things was the number of younger modelers in attendance. Model railroad enthusiasts are the most serious, dedicated, and in most cases knowledgeable hobbyists in our country. North American railroading is well represented by this unique modeling group.

HO & N SCALE TRINITY 5161 CUBIC FOOT HOPPER CARS

This popular car has been in such demand in N scale that we want to make it available in HO scale as well. Featuring sharp details, including an etched metal roof walk, this hopper car is seen throughout the Midwest and across the country. Ten paint schemes are offered for Advance Reservation this month. All are new in HO and are reruns with new car numbers in N scale. The beautiful KCS scheme has been the most popular in N scale so there are six new car numbers in this offering.

PayPal is now available for those of you who wish to pay by this method. This will be very convenient for many customers who order parts. Please check our website notice or call (800) 472-2530 for details.

Frank Angstead
InterMountain Railway Company
