January 2017 Dealer Announcement

HO & N SCALE 4785 PS2-CD COVERED HOPPER CARS!

ALL NEW TOOLING!

The early version of this popular hopper car dates from the late 1960's. Many of them are still in interchange service by various owners and can be seen across the country. Many of the cars were in lease service to a multitude of users providing a large number of colorful paint schemes, twenty three of which are available in this first Advance Reservation release. The InterMountain version will incorporate all of the many variations for this unique car. The car will feature an etched metal roof walk, finely molded details, wire grab irons, Kadee couplers, and InterMountain metal wheels. These cars will be at home on any HO or N scale model railroad from 1967.

HO SCALE FP7 & FP9 LOCOMOTIVES

Five paint schemes of the FP7, three with accompanying B units, and four schemes of the FP9 locomotives will be available for shipping in late January or early February. These locomotives are available for operation in DC, DCC, or DCC with sound. All are finely decorated with multiple prototypical road numbers (when available). All DCC & Sound units are factory equipped with ESU® decoders.

N SCALE 8,000 GALLON TANK CARS

Eight road names of these popular cars will be ready for delivery in late January or early February. Four prototype schemes, including two offered for the first time by InterMountain, and four all new Famous Image Collector Series brilliantly decorated in bright colors and outstanding logos are included in this offering. Quantities are limited so confirm your reservations or place your add-on orders soon.

SHOW UPDATE

The Amherst Model Railroad Society show at the "Big E" in West Springfield, MA is only a few days away. If you are in the area on January 28th and 29th, be sure to attend the show with approximately 20,000 other fans of model railroading and stop by the InterMountain booth. This is one of the premier shows of the year in the US and shouldn't be missed.
