

MARCH 2017 DEALER ANNOUNCEMENT

N SCALE SD38-2 LOCOMOTIVES

This month is the initial announcement of the N scale SD38-2 locomotive. Ten colorful paint schemes are included in this new offering. Used primarily in yard service and on shortlines, these locomotives were built during the decade of the 1970's and most are still in service today. These models will be equipped for DC or DCC operation. The DCC locomotives will include factory installed PC boards either with or without sound according to the desire of the modeler.

HO SCALE TRINITY 5161 CU. FT. HOPPER CARS

The offerings of the 5161 this month in both HO and N scale represent a number of BNSF Heritage Series paint schemes. Seven of the ten decorative schemes are being made available for the first time in N scale. All ten are being offered for the first time in HO scale by InterMountain. These outstanding models feature beautiful etched metal roofwalks, a high level of detail, and sharp painting and lettering. These popular cars will brighten up many HO and N scale layouts with their colorful decorations.

HO SCALE GP10 LOCOMOTIVES

Three more paint schemes of the HO GP10 locomotives are being shipped this month. The first offerings of this beautiful model have been a welcome addition to the HO market and have been receiving rave reviews. Be sure to place your orders for the current items soon or risk having to wait for the re-run. These powerful locomotives with ESU electronics on board are now operating flawlessly on many club and private layouts across the US and, yes, in several other countries where North American modeling is practiced.

ONLINE TECHNICAL INFORMATION & SUPPORT www.intermountain-railway.com

As many of you know, InterMountain's locomotives are factory equipped with DCC decoders. DCC continues to be the preferred method for operating model trains. As a result, tech support continues to be important to us. If you have tech support questions about your locomotive, there are some resources. First, the paperwork that comes with your locomotive is a great start. This paperwork contains the primary locomotive function information and will get you started. Replacement paperwork is available on our website under "Customer Service". Choose your specific scale's product instructions. You may view and download the instructions for your locomotive.

For further tech support we encourage you to visit our website's "DCC Assistance" section. You might be able to find the answer to your question(s) without having to contact us. Our ESU Tips and Tricks page outlines common settings for customizing your locomotive. Beyond this, we have a lot of other useful information posted and are continuing to add to and expand this page. Visit often for the most updated information.

ALL NEW MODEL ANNOUNCEMENT!

EMD SD38-2 Locomotives

Announced: March 17

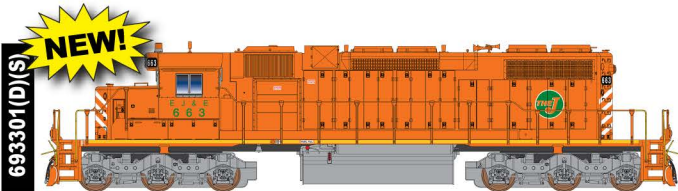

Reservations Due By: April 30

Available: Spring 2018

The SD38-2 was introduced in 1972 and built until 1979. It is the non-turbocharged, 2000 HP version of EMD's very successful SD40-2. The SD38-2 was produced in limited numbers, but found homes on many Class 1 railroads. They were typically used in yard service where low speeds and good tractive effort was required. Almost all are still in service today, with many being refitted as Remote Control yard locomotives.

N List: DC: \$139.95
DCC: \$189.95(D)
DCC & Sound: \$249.95(S)

Features: These SD38-2 locomotives will be manufactured with finely molded parts that have been designed to reproduce railroad specific details. Sound units come equipped with an all new ESU® LokSound® Select Micro "Slide-In" sound decoder. Non-Sound DCC units are equipped with an all new ESU® LokPilot® Micro "Slide-In" decoder.

HO Scale
Fully Assembled Models

DEALER MEMORANDUM
NUMBER 17-007

Items will begin shipping the week of March 20th!

March 17, 2017

GP10 PADUCAH LOCOMOTIVES

Through the 1970's, the Paducah shops of the Illinois Central rebuilt worn out EMD GP7 & GP9 locomotives into the GP10. The InterMountain Railway Company HO Scale GP10 Locomotive will be manufactured with finely molded parts that have been designed to reproduce railroad specific details -- HORST Air Filter, Horizontal Nose Headlight, Extended Right-front Tool Box, & Engine Access Hatches on the roof. Sound locomotives are factory equipped with ESU® LokSound Select sound decoders, and non-sound locomotives are factory equipped with ESU® LokPilot non-sound decoders. For DC only operation, a DC plug option is available upon request.

Suggested Retail Price: \$189.95
with sound: \$279.95

CHICAGO, CENTRAL & PACIFIC
(STOCK #49805(S))

STOCK / LOCO #
-01 1744
-02 1750
-03 1775

These locomotives are painted red with white lettering. The sill is also white. The Chicago Central herald on the cab is green and white.

ADMX
(STOCK #49809(S))

STOCK / LOCO #
-01 700
-02 8401

These locomotives are painted gray with a blue stripe down the side. The lettering is also blue. The handrails and grab irons are yellow.

ARKANSAS-OKLAHOMA
(STOCK #49810(S))

STOCK / LOCO #
-01 1050

These locomotives are painted dark gray with a bright green stripe down the side. The MIDSOUTH lettering and nose stripes are white. The A-OK herald and the horn are red.
