

APRIL 2017 DEALER ANNOUNCEMENT **HO & N SCALE SD40-2 LOCOMOTIVES**

ADVANCE RESERVATIONS

The Advance Reservations sheets this month include an additional ten road names in both N and HO scales. Several of these decorative schemes are relatively obscure short lines so they may never be offered again. Reserve them now! All ten of these schemes feature very colorful decoration and railroad specific details. The days of generic detailing of locomotive models is past, as evidenced by the authentic level of detail on these models. The desires of today's modelers have resulted in a quality level that sets the bar higher and higher as time goes on.

AVAILABLE NOW

We will be shipping eight new paint schemes for the N scale SD40-2 locomotive this month. They include one high hood version and two snoot nose version. These highly detailed, authentically decorated models will be beautiful additions to any N scale layout – home, club, or modular. The first group of these long-awaited locomotives sold out quickly, so be sure to place your orders soon. DCC and Sound versions of these models are equipped with the NEW ESU "slide-in" decoders. These locomotives were owned by nearly every major railroad so were seen all across the country. Most are still in use today.

SHOWTIME!

If you happen to be in the Calgary area on April 22nd & 23rd, stop by the InterMountain booth and talk to Doug and Kirk. They will answer any and all of your questions and share with you important news about future InterMountain projects. They will be displaying many of the recently released models and will have samples of some of the new models soon to be delivered.

ALL NEW PAINT SCHEMES! SD40-2 Locomotives

Announced: April 14

Reservations Due By: May 31

Available: Nov / Dec

HO List: \$199.95
w/ Sound: \$299.95

N List: DC: \$139.95
DCC: \$189.95(D)
DCC & Sound: \$249.95(S)

These SD40-2 locomotives will be manufactured with finely molded parts that have been designed to reproduce railroad specific details. All locomotives are factory equipped with an ESU sound decoder or ESU non-sound decoder. DC available for N scale and DC plug option available for HO locomotives by request.
