

AUGUST 2017
DEALER ANNOUNCEMENT

NEW LOCOMOTIVE **N** **TIER 4 GEVO** *Scale* **ADVANCE RESERVATION**

In July of 2016 Fox Valley Models designed several versions of the new N scale Tier 4 Locomotive to ride atop their proven GEVO drive train. This was a continuation of an effort to develop high quality diesels reflecting the current state of model railroading. However, that same month the FVM family welcomed a new son into the world that has important health issues. With time and focus needed at home, development of this project stopped. While the outlook for the FVM family is improving, it still requires much time and effort. Understanding the importance of delivering this new N Scale Diesel, InterMountain Railway Company has assumed the role of bringing this project to market. Featuring all new tooling, it will be a great addition to the InterMountain line of N Scale locomotives. Our sincere thanks to Matt for all of the work he has put into this project and for all he has done for the hobby. Our heartfelt concern and prayers are with Matt and his family as they face the challenges ahead of them.

As noted in the enclosed Advance Reservation sheet all six available road names are included in the first release with six road numbers each (except for the one that only has two locomotives). The initial reservation period will end September 30, 2017 and delivery is expected early 2018.

Under License From GE Transportation 

If you think you missed out on InterMountain Railway's first run of Tier 4 Gevo Locomotives...

Think Again.

HO *Scale* **FIRST PRODUCTION RUN!** **IN STOCK & AVAILABLE NOW**

The first production run of the HO Tier 4 GEVO is now in house! These models will be inspected, tested and shipped to those with Advance Reservations during the next two to three weeks. While the initial run is oversold, we have provided for a small second production run which is described below.

TWO MORE ROAD NUMBERS! **IN STOCK & AVAILABLE NOW**

Very limited quantities of two new numbers in all five road names of the phenomenal InterMountain HO Tier 4 GEVO are now available. If you failed to order the first production run, or if you underestimated your demand, you have a second chance. There are a small quantity of these models available on a first-come, first-served basis. They will be shipping near the end of August when the original run has been fully processed and delivered.

GE EVOLUTION SERIES TIER 4 LOCOMOTIVES

FEATURING ALL NEW TOOLING & CHASSIS

Under License From GE Transportation

HO SCALE PHOTOS & ARTWORK SHOWN

Announced: August 11 Reservations Due By: September 30 Available: Spring 2018

"GE Transportation's Evolution Series Tier 4 Locomotive meets the U.S. Environmental Protection Agency's (EPA) stringent Tier 4 emission standards without use of any type of after-treatment. Part of the ecomagination-certified Evolution Series, this locomotive will decrease emissions by more than 70 percent and will save railroad customers more than \$1.5 billion in urea infrastructure and operational costs. GE Transportation has invested \$600 million in the Evolution Series since its introduction in 2005." - General Electric

List:
\$159.95 DC
\$199.95 DCC
\$259.95 DCC w/ Sound

The N-Scale Tier 4 GEVO will continue InterMountain's tradition of excellence in this series of modern, GE-built locomotives. This all new model will feature finely molded parts and railroad specific details, accurate paint and lettering with laser sharp printing and a smooth, powerful drive mechanism. This locomotive will be factory equipped with an all new ESU® LokSound® Select Micro "Slide-In" sound decoder. Non-Sound DCC units are equipped with an all new ESU LokPilot® Micro "Slide-In" decoder.

COMMODITIES

Tri State Commodities believes that customers deserve on time quality service, and doing this takes the right people and the right equipment.

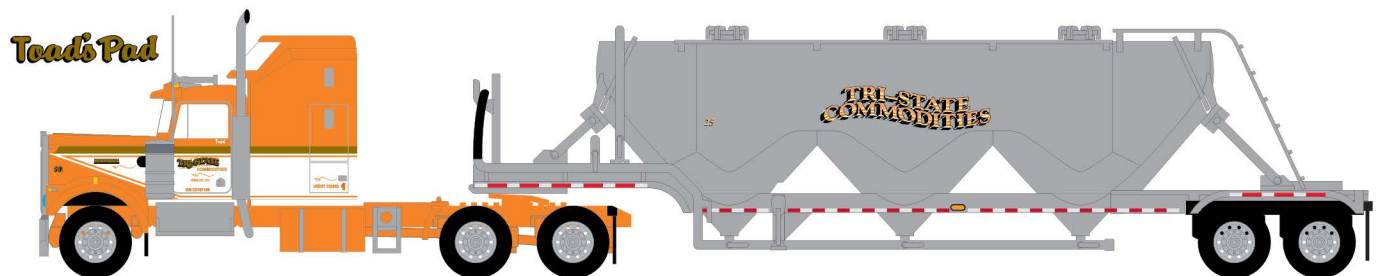

Jack Shupe started Tri State Commodities of Greeley Colorado in 1971. Jack's sons Gregg and Grant are part owners and have been with the company since high school in the late 70s. Gregg and Grant's wives and children work at the Shupe family owned and operated business. Many of the Tri State drivers have been making on time deliveries for the company for decades and have their names painted on the door of the trucks they drive.

Tri State has a fleet of nearly 50 trucks and none of them are new, (you won't see any DEF at this facility). They were pulling a W900A into the shop for an oil change while I was there and it had high door handles which puts it into the 1960s to very early 1970s vintage. The shop is a busy place building trucks from the frame up and keeping the fleet in top condition. The fleet is comprised of roughly 96% Kenworth W900s, (saw a Pete 379 there and another 379 was on the road). All of the Tri State trucks are set up to get deliveries done on time with big power coming from Cat or Cummins. These trucks all have personality and even have individual names on the back of the cab or sleeper. Greg Shupe has custom built and restored 6 different A model W900s.

"Toads Pad" started out as a 1882 W900A. Greg stretched the frame and added a smooth riding air suspension. Power was upgraded to a 525 horse N14 Cummins and a Roadranger 18 speed transmission. A new Aerodyne sleeper was coupled to the original cab so that modern air ride cab suspension could be utilized underneath. A custom new Burgundy interior was added to the inside of the cab and sleeper. The truck is finished in a custom orange and white Midnight Sun paint job with lots of chrome, graphics and pin stripping.

"American Graffiti" Is another early 80's W900A. Greg also custom built and restored this truck from the frame up in the Tri State shop. Power comes from a 525 hp N14 Cummins and is transferred through a 15 speed Roadranger transmission. The original 60" flat top sleeper was coupled to the cab and a cab air suspension was added as well as a new sound deadening interior for driver comfort. The familiar Tri State custom Midnight Sun paint scheme was applied as well as graphics and pin stripping. Greg finished the truck with new chrome stacks, bumper and air cleaners.

Both of these trucks are show trucks but you won't find them at a show; these are daily drivers and the best place to find them is on the road. It is my pleasure to recognize the Shupe family and the men and women at Tri State Commodities by bringing to N scale these "LEGENDS OF THE ROAD".
